Description du produit

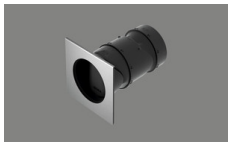

Ø 158 x 1 mm., acier inoxydable. Convient à la boîte murale 3box UEBR. Composant important pour la sécurité.

La protection d'intervention UEBRES doit être utilisée lorsque la distance entre l'ouverture de soufflage du ventilateur et l'ouverture de soufflage du caisson mural est inférieure à 900 mm pour une gaine d'évacuation droite.

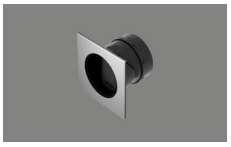

Avec la protection d'intervention, BORA offre une sécurité complète lors de l'installation d'un caisson mural à proximité immédiate (distance du canal

.
